

# HONOR ROLL

The National Model Railroad Association sponsors an Achievement Program (AP) which recognizes superb skill in all facets of model railroading. In a sense, it is a documented journey throughout the skills of the hobby, culminating in the awarding of the honor of Master Model Railroader (MMR). The Golden Spike Award documents those entry skills needed to complete a reasonable size model railroad. The Achievement Program provides more challenging exercises in a variety of skills, requiring the earning of 7 of the possible 11 Achievement Program Certificates to be awarded the honor of Master Model Railroader. The AP Program is available to all NMRA Members by virtue of active membership and represents the formal recognition of very high achievement within the hobby of model railroading.

Division 3, Mid-Central Region, National Model Railroad Association consists of many superb modelers who have produced magnificent layouts. This Honor Roll recognizes those Division 3 members who have formally completed their Golden Spike Awards, the various Achievement Program Certificates, and the award of the honor of Master Model Railroader. Congratulations to all!
